

Forecast For Northeast England  
Issued by Met Office Exeter  
at 0400 on Thursday 24 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:

Early cloud and rain clearing. Brighter spells for a time.

Today:

Rather cloudy start with few outbreaks of light rain and drizzle, along with hill fog across the Pennines. Cloud breaking, with rain clearing south by the afternoon, and brighter spells following. Further rain and cloud spreading south during the evening. Maximum temperature 23 deg C (73 deg F).

Tonight:

Cloudy with rain and drizzle overnight. Low cloud will lead to some hill fog across the Pennines, and also turning a little breezier than on Wednesday. Minimum temperature 8 deg C (46 deg F).

Friday:

A cloudy, damp and cooler day with further outbreaks of rain and drizzle, perhaps persistent in places, particularly across the hills. The moderate breeze gradually easing later in the day. Maximum temperature 13 deg C (55 deg F).

Outlook for Saturday to Monday:

Another dull start Saturday, with cloudy skies and further outbreaks of rain, but gradually turning drier and brighter through the day. Fine, with plenty of warm sunshine Sunday and Monday.
